

NAUTICAL INSTITUTE (CYPRUS BRANCH)
PRESENTATION

CYMEPA House, Irinis Square & Navarinou Street, Limassol on:

Wednesday 13th March 2013, 1915 Hrs

DEATH IN AN ENCLOSED SPACE –
THE NEED FOR PORTABLE GAS DETECTORS ON SHIPS

Seafarers are still losing their lives in enclosed spaces and the shipping industry still argues about whether portable gas detectors are needed on board certain ships.

This presentation will explain about the dangers of enclosed spaces, gas analysis methods as well as the latest equipment and technologies available.

A presentation by Kimon Spanos, Manager, Stop SA, Greece.
